

SREESHYRAG S

Software Developer

Kollam, Kerala | sreeshrag@gmail.com | +91 7561086240

PROFESSIONAL SUMMARY

Results-driven software developer with 3 years of experience in delivering robust cross-platform mobile and web applications. Specializes in Flutter, Laravel/PHP, Express.js, React, REST APIs, JWT authentication, and state management. Expertise in scalable SaaS platforms, e-commerce, and CRM systems. Focused on performance, clean code, and user-centric design.

TECHNICAL SKILLS

- **Mobile:** Flutter, Dart, Firebase Auth, Firestore
- **State Management:** Riverpod, Provider, GetX
- **Backend:** Laravel, PHP, Express.js, REST APIs, JWT, MySQL, Database Design
- **Frontend:** HTML5, React, CSS3, JavaScript, jQuery, Bootstrap, Tailwind CSS, Responsive Design
- **DevOps & Tools:** Git, GitHub, Bitbucket, Postman, VS Code, Android Studio, Xcode
- **Soft Skills:** Problem Solving, Debugging, Team Collaboration, Mentoring, Project/Trello/Jira Management

PROFESSIONAL EXPERIENCE

CYBMIRROR INNOVATIONS

Software Developer | Techno Park, Kollam | 2022 – Present

Construction Manhour Tracking SaaS Platform (2025)

- Designed and developed full-stack SaaS (Express.js, React, MySQL) for real-time project cost and manhour tracking.
- Built multi-role authentication (Super Admin, Company Admin, Staff) with JWT; implemented role-based dashboards.
- Integrated budget controls, CPI, and variance analysis for multi-company project monitoring.
- Optimized performance analytics, interactive dashboards, and exportable PDF/Excel reporting.
- Managed hosting and deployment on VPS server.

Multi-role E-Commerce Platform (Web + Flutter) (2025)

- Architected Laravel web platform and Flutter app for Play Store—multi-role (Admin, Client, Supplier, Delivery).
- Developed inventory, dynamic pricing, OTP & Google Sign-In, order management, Razorpay/payments, and delivery assignment optimization.
- Built responsive dashboards, real-time status, analytics, dispute management, and automated invoice generation.

Self-hosted CRM Solution for Education Sector (2025)

- Implemented CRM with lead lifecycle, admission tracking, staff assignment, and IVR integration for calls.
- Automated report generation, secure RBAC, encrypted logins, and actionable dashboards.
- Reduced manual handling with PDF/Excel export and integrated call recording and verification.

Other Significant Projects

- To-Do Application (Flutter, REST API, JWT): Developed a secure, cross-platform To-Do app with stateful UI, custom tags, and RESTful backend.
- Pamdjils Flutter E-Commerce App: Launched cross-platform shopping app with Firebase, REST API, and Razorpay payments.
- Hadiya Qatar Loyalty App: Built rewards app with QR tracking and merchant dashboards (Flutter/REST API), deployed on both stores.
- Talent Smart Academics App: Created Flutter app for assignment and fee management, published to Play Store.

ADDITIONAL PROFESSIONAL PROJECTS

- Dynamic Websites (PHP/MySQL/JS): Built several responsive websites, integrating dashboards and forms for clients.
- CRM for Staff/Payroll (PHP): Engineered staff management and payroll modules with 25% reduction in admin workload via automation; RBAC and IVR included.
- Legacy System Upgrades: Migrated 10+ PHP applications to Laravel for improved scalability and client retention. Provided ongoing patching, bug fixing, and feature upgrades.

INTERNSHIP

KSBDC – Kerala State Backward Classes Development Corporation

Intern | Kollam | 2021 – 2022

- Gained some practical experience.

EDUCATION

Diploma in Computer Engineering

Govt. Polytechnic College, Punalur, Kollam | 2017 – 2020

Plus Two, Biology Science

Kadakkal, Kollam | 2015 – 2017

PROJECT HIGHLIGHTS

- Construction SaaS: Advanced analytics, KPI dashboards, CPI, real-time manhour, and cost management.
- Multi-role E-Commerce: End-to-end modules for products, payment, delivery, and admin analytics.
- Self-hosted CRM: Lead-to-admission lifecycle, dynamic reporting, secure IVR integration.
- Mobile Apps: Real-time chat, e-commerce, loyalty, and education management (Flutter/REST API).
- PHP/Laravel Upgrades: Transitioned legacy systems, introduced modern security, and automated reporting.
